Rahul Mehta

Data Engineer

Chicago, IL | rahul.mehta@example.com | (555) 010-0146

Professional Summary

Data engineer with 5 years building batch and streaming pipelines. Focus on reliable data models and cost-aware warehouse design. Cares about data quality, lineage and cost.

Technical Skills

Languages: Python, SQL, Scala, Bash
Processing: Apache Spark, Apache Kafka, Spark Structured Streaming, Delta Lake
Orchestration and modeling: Airflow, dbt, Great Expectations
Warehouses and cloud: Snowflake, Redshift, AWS (S3, Glue, EMR), Terraform, Docker

Work History

Senior Data Engineer, *Lumen Retail Group* **Sep 2022 - Present**

- Designed a Snowflake and dbt model layer with 140 tested models, cutting analyst query time by 60%.
- Rebuilt the clickstream pipeline on Kafka and Spark Structured Streaming, reducing data latency from 2 hours to 4 minutes.
- Added Great Expectations checks to 30 critical tables and caught 17 upstream data issues in the first quarter.
- Lowered Snowflake compute spend by 28% through clustering, warehouse sizing and query tuning.
- Built a CDC pipeline from PostgreSQL to Snowflake with Debezium and Kafka Connect, replacing a nightly full copy of 800 GB.
- Documented data contracts for 20 source tables and set up schema change alerts that prevented 6 broken dashboards.
- Mentored 3 analysts on writing tested dbt models and code review for SQL.

Data Engineer, *Calder and Finch Insurance* **Jun 2019 - Aug 2022**

- Wrote Airflow DAGs orchestrating 90 daily jobs loading policy and claims data from 12 sources.
- Migrated an on-premise Hadoop cluster to AWS EMR and S3 with no missed reporting deadlines.
- Optimized a slow Spark job by fixing data skew and repartitioning, cutting runtime from 3 hours to 25 minutes.

Projects

NYC Taxi Lakehouse *(Delta Lake, Spark, dbt)*

- Open-source demo of a bronze, silver and gold lakehouse with data quality tests and a Dagster schedule.

Education

B.S. Computer Engineering, Prairie State University (2019)

Certifications and Tools

- SnowPro Core Certification
