Jonas Weber

SDET / QA Automation Engineer

Portland, OR | jonas.weber@example.com | (555) 010-0150

Professional Summary

QA automation engineer with 7 years building test frameworks for web and API products. Passionate about fast, reliable pipelines. Believes quality is a team activity, not a handoff.

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, SQL
UI and API testing: Selenium WebDriver, Cypress, Playwright, REST Assured, Postman, TestNG, JUnit
Process: BDD with Cucumber, test planning, regression testing, exploratory testing, bug triage
Performance and CI: JMeter, k6, Jenkins, GitHub Actions, Docker, Jira, TestRail

Work History

Senior SDET, *Marigold Software* **Mar 2020 - Present**

- Built a Playwright and TypeScript framework covering 600 UI scenarios; the full suite runs in 14 minutes with 8 parallel workers.
- Created a REST Assured API suite of 900 checks that gates every pull request in Jenkins.
- Reduced flaky tests from 9% to under 1% by adding explicit waits, test data isolation and quarantine tooling.
- Wrote JMeter load tests that found a connection pool bottleneck before a launch expected to triple traffic.
- Mentored 4 manual testers into automation roles.
- Built a contract testing setup with Pact between the web client and 6 microservices, preventing 11 breaking API changes.
- Added accessibility checks with axe-core to the Playwright suite and reported 40 issues to the frontend team.
- Created a test data service in Docker that provisions isolated accounts for each test run.

QA Engineer, *Westbrook Systems* **Jun 2017 - Feb 2020**

- Automated regression tests in Selenium and Java, reducing release testing from 3 days to 6 hours.
- Wrote test plans and acceptance criteria with product owners for 30 user stories per sprint.
- Introduced Cucumber BDD scenarios that product owners read and approve before development starts.

Projects

Open-source: playwright-flake-report *(TypeScript, GitHub Actions)*

- Action that comments on pull requests with a list of tests that failed and passed on retry.

Education

B.S. Software Engineering, Cascade State University (2017)

Certifications and Tools

- ISTQB Certified Tester Foundation Level
