Aisha Khan

Android Developer

San Diego, CA | aisha.khan@example.com | (555) 010-0151

SUMMARY

Android developer with 5 years shipping consumer apps in Kotlin. Recently led the move from XML views to Jetpack Compose. Cares about smooth performance on low-end devices.

TECHNICAL SKILLS

Languages: Kotlin, Java, SQL
Android: Jetpack Compose, MVVM, Coroutines, Flow, Hilt, Room, Retrofit, WorkManager, Navigation
Quality: JUnit, Espresso, MockK, Firebase Test Lab, Crashlytics
Tools: Android Studio, Gradle, Git, Firebase, Bitrise, Figma, Play Console

EXPERIENCE

Android Developer, *Seabright Fitness* **Jan 2022 - Present**

- Rebuilt the workout tracking flow in Jetpack Compose, reducing crash rate from 1.8% to 0.4% and improving app store rating from 4.1 to 4.6.
- Implemented offline-first sync with Room and WorkManager for 500k active users.
- Set up Bitrise CI with unit and Espresso tests; release time dropped from 2 days to 3 hours.
- Cut cold start time by 35% using baseline profiles and lazy initialization.
- Introduced a modular architecture with feature modules and Hilt, cutting clean build time from 9 minutes to 4.
- Integrated Google Play Billing for subscriptions and handled grace periods and restore flows.
- Added accessibility support (TalkBack labels, touch target sizes) and font scaling across the main screens.

Junior Android Developer, *Pixelworks Mobile* **Aug 2020 - Dec 2021**

- Built 3 client apps in Kotlin using MVVM and Retrofit.
- Integrated Firebase Authentication, Cloud Messaging and Remote Config.
- Published release notes and managed staged rollouts on Google Play for 2 apps.

PROJECTS

Trailnotes (personal app) *(Kotlin, Compose, Room)*

- Hiking journal app with 10k downloads on Google Play.

Pocket Budget *(Kotlin, Compose, Room, Hilt)*

- Offline-first budgeting app with a home screen widget and CSV export; 5k downloads.

EDUCATION

B.S. Computer Science, Coastal State University (2020)

CERTIFICATIONS

- Associate Android Developer (Google)
