Methods: Agile, Scrum, Kanban, stakeholder management, change management
Domains: ERP (SAP), CRM (Salesforce), order management, finance reporting

Work History

Senior Business Analyst, *Northwind Distribution* **Aug 2021 - Present**

- Gathered and documented requirements for an SAP order management upgrade used by 900 staff.
- Wrote 180 user stories with acceptance criteria and ran 6 UAT cycles with a 97% pass rate on release.
- Used SQL and Power BI to find that 22% of returns came from 3 product lines; the fix saved $600k a year.
- Facilitated weekly backlog refinement for 3 scrum teams and 12 stakeholders.
- Built a requirements traceability matrix in Jira and Confluence linking 180 stories to test cases and release notes.
- Ran discovery workshops with finance, warehouse and customer service to document 14 process pain points and ranked them by cost.
- Wrote SQL queries to validate data migration of 1.2M customer records and found 3,400 duplicates before cutover.

Business Analyst, *Fairhaven Credit Union* **Jul 2018 - Jul 2021**

- Mapped 25 loan processes in BPMN and removed 7 redundant approval steps.
- Coordinated testing for the mobile banking app launch, covering 400 test cases.
- Created a training guide and ran 5 sessions for 120 branch staff on the new loan origination system.

Projects

Process improvement pilot *(BPMN, Power BI)*

- Redesigned the returns workflow and tracked time-to-resolution in Power BI; median fell from 9 days to 4.
